Reset admin password for b2evolution

Through phpMyAdmin you can access your database.

Select the correct database in the left hand box.

Find evo_users and hit "Browse"

In this box hit the pencil "Edit"

For the password (the string with random numbers and letters) fill in "b3188adab3f07e66582bbac456dcd212" without the quotes.

Save, leave phpMyAdmin and enter your blog. Your password is now "cabbage" without the quotes. Don't forget to change your password as soon as you'll be able to login.
