

Coupon usage general FAQ

Q: Can I use coupons I found on the Internet for my account?

A: Yes! But certain terms and conditions apply.

1. New customers can use coupons for a new hosting account or multiple hosting accounts, on their first invoice. Coupons do not recur every month. The greater your first invoice, the greater your total savings.
2. Existing customers may use coupons on the first invoice for a new hosting account in their existing customer profile.
3. Coupons cannot be used for established hosting accounts.
4. Coupons cannot be combined.
