

# Clipshare failed to find flength file

## Problem

If you are receiving this error make sure that your paths are correct.

Check in ubr\_ini.php for this line:

```
$PATH_TO_UPLOAD_SCRIPT
```

And make sure that it is set to:

```
/clipshare/cgi-bin/ubr_upload.pl
```

The above assumes that your script is installed at [yourdomain.com/clipshare](#).
