How do I add a PayPal store to my site?

The Online Store is a premium online store that supports a wide range of payment gateways, including PayPal.

A functional and customizable addition to your site, the store includes management functions such as stock control, inventory management, discount and promotion management, and shipping control. This powerful feature will help you build your reputation as a professional, reliable merchant. With support for over 40 languages, and support for most currencies, you'll be able to reach even more customers than ever.

To read more about how the Online Store can help you grow your business, take a look at our FAQ.

Three basic PayPal e-commerce Widgets are available. You can find them in Widgets > Ecommerce.

eCommerce requires an eCommerce account with GlowHost

Basic e-commerce Widgets

To be able to use these widgets, you need to sign up on www.paypal.com for a free Premier or Business account. Once your account with PayPal has been created, you are ready to add PayPal Widgets to your site.

The three PayPal widgets that you can use on your site are:

1. **PayPal Single Product Widget**
   Displays a single product for sale.
2. **PayPal Product Catalog Widget**
   Add this to your page to neatly display more than one product for sale.
3. **Donation Collection Widget**
   Allows people to make donations and contributions to your cause.
